

A reliable electric imprinter for your healthcare applications.

With the *Addressograph*® 2000 Series electric imprinters, we guarantee crisp and readable imprints each and every time. We know how important your ability to correctly track medical records is to your facility. That is why we offer the *Addressograph*® 2000 Series to produce accurate, high-quality impressions in any location on any size or type form – from a single sheet up to an eight-part form. Without breakdowns. Without print adjustment. Virtually smudge free. Time after time after time.

Designed specifically for the active healthcare environments, the 2000 fits neatly into any workstation or desktop area. An outer MAGNUM *9555 plastic casing, the same tough fire-retardant plastic used for phones, makes operating extra quiet for noise conscious facilities while the rugged steel chassis ensures durability and smooth performance.

The *Addressograph*® 2000 Series will give you years of superior, uninterrupted performance along with thousands of crisp impressions. It will easily pay for itself many times over in legibility, speed, accuracy and increased efficiency.

FLEXIBLE - TO MEET INDIVIDUAL NEEDS

Whether it's patient identification, accounting, or routing and delivery information, you can depend on the 2000 to precisely reproduce the information you need – in less than one second.

The 2000 Series of imprinters is available in four different models and any configuration to exactly meet your specialized imprinting applications.

SINGLE-SOURCE SUPPLIER

Addressograph® by NewBold Corporation can supply you with embossers, imprinters, blank PVC plastic cards, even depot or on-site maintenance service to fully complement your plastic card system and program.

- UL/CSA certified

THE ADDRESSOGRAPH® 2000 SERIES

The 2000 series imprinter family offers unmatched flexibility for many specialized patient card applications. Each unit is precisely manufactured to fit your individual imprinting requirements.

Model 2000. The Standard.

Operates left-to-right with a three-inch stroke, offering format flexibility to imprint on the top or bottom of the form.

Model 2100. Format Flexibility.

Operates front-to-back with a three-inch stroke for greater format flexibility: imprinting on the top, middle or bottom of the form, including the right or left side. Ideal for imprinting Doctors order forms.

Model 2200. Large Imprint Area.

Operates left-to-right with a five-inch stroke. Generally used for imprinting tab card sets or the top of long forms. Allows for a date wheel or metal ID plate to be placed to the right or left of card.

Model 2300. Specialized Formats

Operates front-to-back with a five-inch stroke. It imprints the top, middle or bottom, including the right or left side of forms that require a larger imprint area.

Model 2400. VA Hospital Approved.

Similar to the 2300, but designed especially for the VA Hospital specifications. Fitted with an additional ID plate holder.
